

P1.2 Site Plans — Electrical Context Excerpts (Normalized) (Mock)

Derived from: P1-I01_SitePlans_Arch_Set_rev2_2026-01-15.pdf
EV Charging Site Project — Phase 1 Normalized Outputs (MOCK)

This normalized excerpt package contains only the minimum plan information needed for electrical engineering: electrical room identification, service room context, and reference geometry. No routing/trenching/constructability assumptions are included.

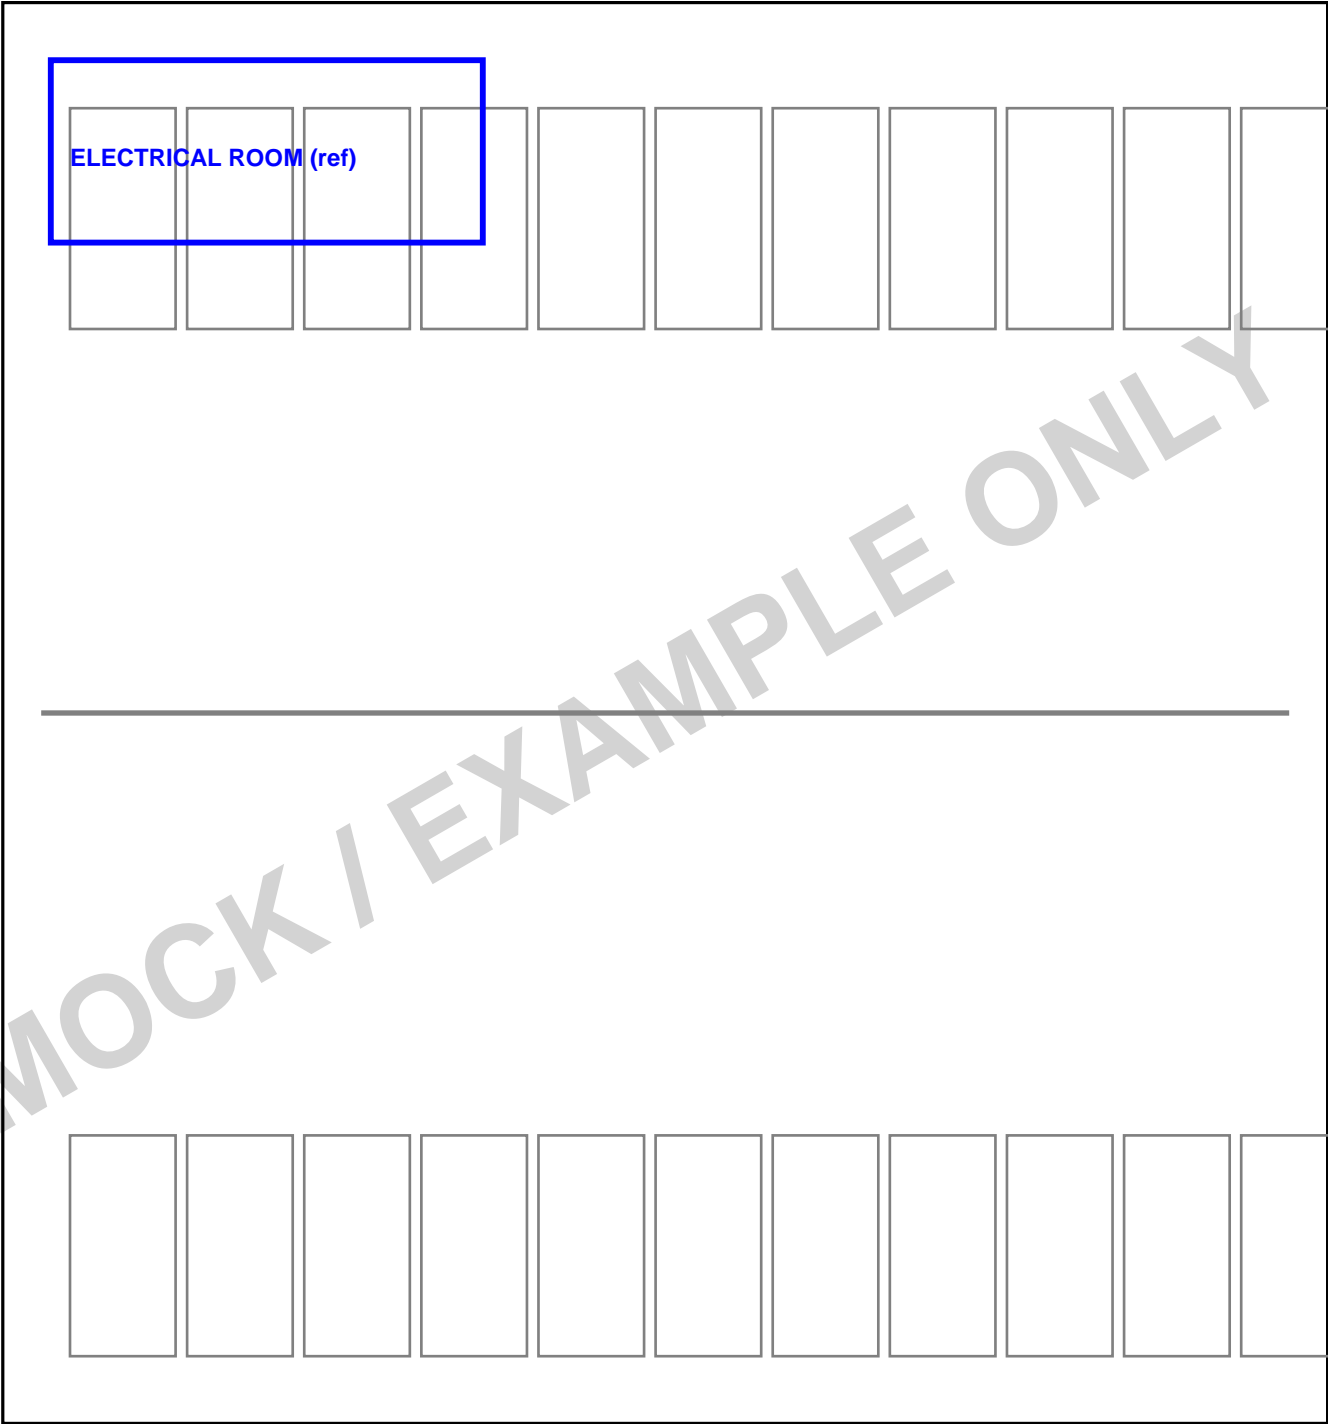

Normalization actions (mock):

- OCR applied; searchable text verified
- Bookmarks added per sheet
- Electrical-context-only sheets extracted; superseded pages omitted

MOCK / EXAMPLE ONLY

Garage Plan Excerpt (Normalized, Mock)
